

Name: _____

MATH 307

Spring 2023

Reflection 5: Due 05/03 (04)

“Intellectual growth should commence at birth and cease only at death.”

–Albert Einstein

A Semester Self-Reflection

At the beginning of the semester, you were asked to respond to the following prompts:

- What is Mathematics? How do you learn Mathematics?
- What does Mathematics ‘look like’?
- Is Mathematics more about memorization or thinking skills?
- What skills do you need to succeed at Mathematics?
- What does ‘good’ mathematics ‘look like’?

Examine your answers from the beginning of the semester. Respond to each of the above prompts again. Compare your answers to the ones you gave at the beginning of the semester. What, if anything, has changed about your responses? Why did your response change or stay the same?
