

# Syllabus Quick Facts

## MATH 101: College Algebra — Fall 2022

### Course Information

Instructor Email: [cmcwhort@stac.edu](mailto:cmcwhort@stac.edu)

Course Webpage: <https://coffeeintotheorems.com/courses/2022-2/fall/math-101/>

Office Hours:

Mon.	11:30 am – 12:30 pm
Tues.	4:00 pm – 5:00 pm
Wed.	11:30 am – 12:30 pm
Thurs.	4:00 pm – 5:00 pm
Fri.	11:30 am – 1:30 pm

### Grading Components

Course grades are determined by the following components:

Quizzes	10%
Exam	40%
Homework	50%

### Attendance

Attend each lecture and show up on time. Anticipated absences should be addressed with the instructor in advance of the absence. Address any absences—anticipated or otherwise—with the instructor. If you miss a lecture, you are responsible for any material covered, any work assigned, any course changes made, etc. during the class. Four or more unexcused absences from lectures could result in receiving a grade penalty per additional absence or an 'F' in the course. Furthermore, excessive lateness will also count as an absence.

### Quizzes

There will be a quiz *every* class, typically at the start of class. Because solutions will often then be immediately discussed, no make-up quizzes will be given (except under extraordinary circumstances).

### Homework

There will typically be a homework assigned each class, due the next class. Homework is a large portion of your grade, so your best work should be put into them. Your solutions should be neat, organized, display effort and clear mathematical thinking, and they should be submitted using the homework packets. Assignments should be started as soon as possible; it is easier to keep up than it is to catch up. You may request extensions on homework assignments (possibly incurring a grade penalty). Requests for extensions should be submitted to the instructor in a timely fashion—do not delay! However, do not simply assume that you will be able to receive extra time on an assignment and plan your schedule carefully. You are encouraged to work with others on homeworks; however, be sure to carefully abide by the academic integrity standards excepted by the college and instructor.

## Exams

There will be a total of 4 exams that are each worth 10% of the course grade for a total of 40%. The tentative schedule for these exams can be found below. Each exam covers course material, up until the exam preceding it. While the exams are not cumulative, topics from previous exams can appear in an exam if the material is relevant—but it will not be the focus of the exam. You should be present, seated, and prepared for a scheduled exam before the exam begins. If you are late, you should not expect extra exam time. There are no make-up exams except under extraordinary circumstances.

## Course Schedule

The following is a *tentative* schedule for the course and is subject to change.

Date	Topic(s)	Date	Topic(s)
09/05	Labor Day (No Classes)	10/26	Functions
09/07	Real Numbers	10/31	Linear Functions
09/12	Real Numbers	11/02	Linear Functions
09/14	Real Numbers	11/07	Linear Functions
09/19	Real Numbers	11/09	Linear Functions
09/21	Geometry	11/14	Exam 3
09/26	Geometry	11/16	Polynomials
09/28	Exam 1	11/21	Polynomials
10/03	Applications of Arithmetic	11/23	Thanksgiving Break
10/05	Applications of Arithmetic	11/28	Polynomials
10/10	Applications of Arithmetic	11/30	Polynomials
10/12	Applications of Arithmetic	12/05	Polynomials
10/17	Exam 2	12/07	Polynomials
10/19	Functions	12/12	Polynomials
10/24	Functions	12/14	Exam 4
